

## **Aims**

The main aims of our career program as a school are:

- Careers education within the curriculum
- Access to advice and guidance
- A range of opportunities to meet providers of post school opportunities

## **How will we achieve our aim?**

Using the governments Statutory Guidance and the standards set by The Gatsby Foundation, known as the Gatsby Benchmarks we have developed our Careers Education Programme, within the PD Curriculum, and review this regularly to ensure compliance. We provide opportunity for individual Careers guidance with a professionally qualified and independent careers Adviser. Students in years 10 and 12 will also be given opportunity to undertake Work Experience. Students have access to Careers information in the library, on Unifrog and through messages on Microsoft Teams. Details of events and activities are also displayed on Microsoft Teams (Unifrog is a Careers Platform with is available to students from year 7 to 13. It allows students to research ideas record relevant experiences and build their CV as they progress through school). Ellesmere Port Catholic High School will continue to use all relevant guidelines to ensure that our programme is current and relevant for our students. We also use feedback from students, staff, employers, education providers other partners to review and develop our provision. Our destination data will be used to demonstrate that our students are prepared for their future. Strategic planning using the Gatsby Benchmarks and statutory guidance will be shared and approved by the Senior Leadership team and governing body.
