

Destinations Data

At Ellesmere Port Catholic High School we use the destinations of our students after they leave us to evaluate the effectiveness of our careers program. You can find more information about what our students do after leaving Ellesmere Port Catholic High School here. [Destinations Data](#).

We identify students at risk of being NEET (Not in Employment, Education and Training) before they leave us and refer to experts at Chester and Cheshire West, for their support with these students before and after they leave us.
