Catholic Social Teaching

The Dignity of Work and Education

We believe Literacy to be key to accessing the full curriculum, we are ensuring that every pupil has the chance to achieve their full academic potential. The literacy policy also ensures that all pupils have access to the same high-quality education in every department, no matter their background or ability level.

Aims:

“All teachers should demonstrate an understanding of and take responsibility for promoting high standards of literacy and the correct use of standard English, whatever the teacher’s specialist subject.”

Ellesmere Port Catholic High School wants students to be highly effective communicators who can represent themselves and others with confidence and aplomb. The school will initiate a range of strategies to promote ‘Literacy Across the Curriculum’ for all students, extend the experiences of the most able and support the needs of those who may experience difficulties with literacy.

Provision and enhancement of Literacy across the Curriculum:

Through the provision of English teaching, the library, the SENDCO and the guidance and support of *all* of our staff, we promote an ethos of reading and confidence with language. The school seeks to narrow the gaps between ‘groups of learners’ whatever their diverse need or background.

Students with SEND are supported to enable them to make good progress with their literacy. We monitor our students to identify any who may be in need of extra literacy support and, through our various intervention programmes (Lexia, Dyslexia lessons, study skills, phonics and reading buddies), differentiated lesson planning and other measures, we provide appropriate resources, mentoring and tailored teaching to address the needs of learners so that they may realise their potential across our curriculum.

We have identified some priorities that we believe will further improve literacy and learning across the curriculum whilst promoting efficacy in language, precision of expression and an interest in reading, research and effective communication.
